

Kenosept GTM

FOR FAST AND EFFECTIVE DISINFECTION
OF YOUR HANDS AND SKIN!

- ▶ manufactured according to GMP-pharma norms
- ▶ fast action, no need to rinse
- ▶ contains skin hydrating agents for multiple daily use
- ▶ effective against Influenza A/H1N1 (Mexican flu / swine flu)

Manufactured according to GMP-pharma norms

Kenosept G is manufactured according to the highest pharmaceutical quality standards, with traceability of the raw materials in the whole production chain (till the end-user).

Fast and long lasting action

Kenosept G is based on isopropanol, chlorhexidine and skin conditioning agents. Thanks to the Chlorhexidine the long lasting action is assured.

enosept G has a broad spectrum: bactericidal, fungicidal and virucidal and complies with the EN1040 and the EN1500 (Proven bactericidal action against Pseudomonas aeruginosa, Staphylococcus aureus, Staphylococcus aureus, Enterococcus hirae, Escherichia coli)

Now, Kenosept G has been tested against both the swine and the human strain of the Influenza virus A/H1N1 at a specialised lab in the USA. A copy of the report is available upon request.

Safe in use

Kenosept G is very soft for the skin, recommended for continuous use, due to the presence of specific skin conditioning agents. Kenosept G does not contain fragrances.

Directions for use

Kenosept G can be used in automatic dispensers or dosing pump

Hygienic use as hand sanitizer:

- Put up to 3 ml Kenosept G on the hands (inclusive space between the fingers) and rub until dry

For surgical use as hand sanitizer:
